

Portable Offline Filtration System

Filtration solutions for an almost limitless range of applications.

Power Drives has partnered with Schroeder Industries to introduce the Hand Held Filtration System (HFS), a portable offline filtration unit.

This handheld, compact, mobile package weighs only 30 pounds, making it perfect for mobile applications, service calls and areas with spacial concerns.

Applications include filling and flushing hydraulic system and reclamation of serviceable, mineral-based fluids that would have otherwise incurred high disposal and replacement costs.

Save On:

- Unscheduled maintenance
- Replacement of valves and filters
- Oil costs and disposal

Experience:

- Increased service intervals and machine up-time
- Significant reduction in oil consumption
- Lower repair and maintenance cost

Operating Specifications:

- **Flow Rate:** 4gpm (for tank volumes of 40-240 gallons)
- **Viscosity:** up to 1,600 SUS/350 cSt
- **Power:** 120V AC/60/1 Ph. (corded with 3-prong plug)
- **Seals:** Viton® (FPM)
- **Fluid Compatibility:** mineral-based hydraulic fluid and lubricants

**Simplify your
filtration.
